

**Monika Sanas**

**Software Test Engineer**

**9359780081**

**[sanasmonika21@gmail.com](mailto:sanasmonika21@gmail.com)**

**OBJECTIVE**

To obtain a challenging position in enterprise application integration environment where technology integrates with business functionalities to enhance business process I look forward to the opportunities where I can use my analytical skills in combination with technical expertise to improve all phases of enterprise development, implementation, and maintenance.

**PROFESSIONAL  
SUMMARY**

AN Experienced professional having 3+ years of experience in Manual and Automation having an experience in Functional, Non-Functional, Globalization, UI Testing, API Testing with postman and Automation Testing (Selenium Web-driver with JAVA).

**WORK EXPERIENCE**

**ON**

**Manual Testing**

- Clear Idea about **Software Development Life Cycle** as well as familiar with **Software Testing Life Cycle**.
- Good experience in analyzing the User stories.
- Actively involved in **System Integration Testing (SIT)**.
- Participate in **Scrum meeting** to discuss about project progress report every day.
- Execute the test case to meet customer requirement.
- Experience in defect logging, management and tracking.
- Excellent Knowledge of **Defect Life Cycle**.
- Expertise in designing, writing and executing the test cases and decision tables.
- Hands-on experience with both white box and **black box testing**.
- Have performed **functional testing, system integration testing, ad-hoc testing, sanity testing, regression testing**.
- Analyzed Test Scenarios, design Test cases, and defect analysis, defect report.
- Implemented **Agile Methodology** process in the project
- Prepared weekly Report.
- Design the **Traceability Matrix** to map Business Requirements with test Case.
- Defect life cycle management and bug reporting.
- Effective communication with Team.
- Ability to interact with clients and manage client expectation.

### Automation Testing

- Good understanding in **JAVA, OOPS** Concept.
- Performed Automation testing using **Selenium WebDriver** on Web based (Browser) applications.
- Good experience in creating, modifying, and enhancing both manual Test cases and Test Scripts created in Selenium Web Driver.
- Good understanding of Dynamic Xpath and Iframe
- Executed test scripts on Google chrome.
- Experience **TestNG, Annotations and keywords**.
- Good understanding in Collection framework, Arrays and String Class in JAVA
- Experience in designing of **POM (Page Object Model)** classes.
- Good knowledge on **SQL**.
- Having knowledge **REST, API Testing** with **postman** Tool.
- Experience in identifying web elements using XPath.
- Knowledge of **handling Pop ups and List Box**.
- Knowledge of handling Synchronization (**Implicit, Explicit**).
- Familiar with use of **MAVEN, GitHub**.
- Guiding new team members to get acquired with project knowledge and processes.

---

#### EDUCATIONAL QUALIFICATION

**BE in computer science from Pune university in 2019**

---

#### PROFESSIONAL EXPERIENCE

**Working at Indus from May 2019 to till now as Software Test Engineer**

---

#### SKILL PROFILE

<b>Operating system</b>	: Windows Family.
<b>Programming language</b>	: Java, SQL
<b>Testing process</b>	: Manual, Automation Testing & API Testing With postman
<b>Database</b>	: SQL
<b>Tools</b>	: Eclipse IDE, Selenium WebDriver, postman, Jira.

## PROJECT

**Project Name: APM**

**Domain: Health Care**

---

### RESPONSIBILITIES

- Requirement Analysis: Understanding the requirements and communicating with BA team for better understanding of the requirements.
- Responsible for testing deliverables prioritizes and monitors activities to meet such dates for individual assigned features.
- Identified End to End Test Scenarios, Test Cases and Test Data.
- Writing effective and optimized Test Cases using Black Box Testing techniques.
- Execution of test cases.
- Identification of defects, registering them and reporting them to the onsite lead.
- Performing Functional Testing, Regression Testing and Re-Testing.
- Preparing transition document for other team members.
- Active participation in weekly/daily status calls with the client.
- Identify the test cases for Automation.
- Designing POM Classes and Test Classes.
- Worked on both migration of existing scripts and development of new scripts in selenium.
- Experience in Designing and Implementation of TestNG Framework with Selenium WebDriver.

---

## PROJECT

**Project Name: City Index WebTrader Securities**

**Domain: Investment Banking**

### RESPONSIBILITIES

- Involved in analysis of the requirements.
- Involved in the creation of the test cases according to functional specifications.
- Involved in test Report.
- Performed Functionality Testing, Retesting and Regression Testing and marking the status in the defect management tool.
- Also involved on the automation testing by using Selenium Webdriver.
- Creating the classes of POM and Test as per the requirement of the framework.
- Involved in the daily scrum meeting.

- Analyzing & validating the completeness of business requirements.
- Generating the Test scenarios and Test cases.
- Generating Regression Test scripts by extracting the requirements that need to be tested from available documentation and/or liaising with the relevant people.
- Developed Automation Test Scripts.
- Creating POM (page object model) and Test classes for the framework.
- Retesting defect fixes on each release build.
- Performed Sanity, Functional, System Integration, Retesting, Regression testing.
- Experience in Designing and implementation of TestNG framework with Webdriver.
- Prepared Weekly Report.
